GALILEO'S THINKING HAND

Form and Research Around 1600

Galileo's Thinking Hand represents a fundamental revision of the earlier work *Galileo, the Artist* published in 2007. The sections incorrectly identifying a forgery as the work of Galileo have been corrected. The work sheds light on the artistic aspects of Galileo's research life, drawing on a greatly expanded documentational basis. New insights reveal Galileo's working methods as he explored the moon, sun, moons of Jupiter, and the fixed stars.

Explorations of Galileo's art of drawing

Galilei as the "second Michelangelo"

Important contribution to an artistic epistemology

Approx. 400 pages, 100 Figures (bw),
235 Figures (c)
